We have not incorporated any impact from the retirement benefits into our business performance forecasts for FY2020. [P.10]
- As for annual dividends, there is no change to the previously announced dividend of 115 yen per share (interim dividend of 55 yen, year-end dividend of 60 yen), representing a dividend payout ratio of 32.7%. Furthermore, we are planning on an annual dividend amount of 90 yen per share (interim dividend of 40 yen, year-end dividend of 50 yen) for the upcoming fiscal year, resulting in a projected dividend payout ratio of 56.9%. [P.8]

FY2020 Earnings Forecasts

- As a group that co-creates value for individuals, communities, and people's lifestyles, in response to the novel coronavirus pandemic we have prioritized protecting the lives and health of all our stakeholders, including our customers, our business partners, our employees and their families.
- Following the state of emergency declaration, we closed all sales sites, including our domestic offices and the 229 model house exhibitions we operate throughout Japan. In response, we adopted telecommuting, suspended certain construction sites, and closed certain commercial facilities, hotels, sports clubs, and other facilities prone to people gathering that we own and/or operate. The pandemic has also impacted Group orders received and production activities. Furthermore, since May 9, we have begun the gradual resumption of operations after having implemented infection prevention measures in line with instructions and orders outlined by the government and local municipalities.
- As for our FY2020 earnings, we base our business forecasts on the assumption that the impact of the expanding coronavirus (COVID-19) epidemic on operations and results will have mostly tapered off by the end of September 2020, but that some businesses such as hotels will continue to be affected even after the epidemic has abated. Impact of the COVID-19 epidemic

Status of our company

- We established a response HQ in the head office and have setup local response HQ in our offices to ensure mutual cooperation and the implementation of appropriate measures. We are working to gather information on the pandemic and ascertain conditions in each location. We will follow the guidance of the government and local municipalities to respond as much as possible to the needs of society and our customers. We also are rapidly implementing the necessary responses to minimize the impact on our business.
- We are providing clear advice and information sharing to employees and temporary workers, including ensuring that our employees wear masks, disinfect regularly, and take their temperatures daily. We are instructing the use of special leave in cases of employees for whom reporting to work is difficult due to the daycare and elementary school closures or stay home requests, as well as employees who are pregnant, employees with an underlying illness, and employees at high risk of infection.
- For construction sites throughout Japan, we suspended construction operations from April 20 through May 10 at sites for which we were able to receive consent from the customer but are gradually resuming operations beginning from May 11.
- We are, however, using this opportunity to conduct a fundamental review of sales activity methods and employee workstyles, and we are promoting workflow optimization. We are advancing preparations towards the resumption of business activities once the impact of the novel coronavirus has subsided.

Notes: The total amount includes the impact of completion basis; however, the number of houses is the complete figure. In the Rental Housing, Condominiums, Commercial Facilities, and Logistics, Business & Corporate Facilities Businesses, the figures in the charts include land and buildings. The YOY ratio is calculated on a value basis. Although Existing Homes Business, Leisure business, and Environment and Energy business have been omitted from the charts since they had no material impact on the total amount, the total has been calculated including each value.

注:金額に在行基単による影響が含まれてわりますが、原数は完成イースです。集合性やマンシュン・商業施設・事業施設は、土地・建物を含みます。増減率は金額ベースで算出しています。また、「住宅ストック」「観光」「環境エネルギー」は合計金額に与える影響が軽微の為、省略していますが、「合計」の欄には、各々の数値を含んで算出しています。
