* Presentation of implementing the quarterly review procedures

As of the time when the quarterly financial results are disclosed, the Group had not completed the reviewing (checking) procedures for quarterly consolidated financial statements as laid down by the Financial Instruments and Exchange Law.

* Remarks on appropriate use of forecasted results of operation and other special matters

(Notes regarding forward-looking statements)

Consolidated business forecasts are based on assumptions in light of the information available as of the date of announcement of this material and the factors of uncertainty that may possibly impact the future results of operation. Actual results may differ significantly from those presented herein as a consequence of numerous factors such as the financial market, economic conditions, competitor situations and fluctuations in land prices. Please refer to the section of "Qualitative Information Regarding Consolidated Business Forecasts" of "the Attached Material" on page 4 for the suppositions that form the assumptions for business forecasts.

(Obtaining supplementary explanatory materials)

The Company plans to hold a briefing for analysts and institutional investors on August 5, 2011. Relevant financial statements to be handed out at the briefing will be posted on our official website at the same time.

1. Qualitative Information Regarding Consolidated Results for the First Three Months under Review

(1) Qualitative Information Regarding Consolidated Business Results

During the first quarter of the fiscal 2011 ending March 31, 2012, the economic situation in Japan was extremely severe, partly due to the aftermath of the Great East Japan Earthquake. Despite some signs of an upswing in the economy, including an early recovery by the nation's production system and improved consumer confidence, there remains a strong risk of a further economic downturn against the backdrop of political instability and the prolonged appreciation of the yen's exchange rate. The outlook thus continues to be highly uncertain.

In the Housing industry, government measures to encourage home buying proved successful. These included the Flat 35S preferential interest rate mortgage loans and the housing eco-points system, both of which had been applied since the previous fiscal year. Fears of a sharp decline in housing demand following the March 11 disaster proved unfounded, and new housing construction starts, excluding rental housing, posted firm figures.

Amid this economic situation, during the fiscal 2011, the Daiwa House Group worked to improve the business performance of all business segments through the practice of management that emphasizes building close ties linking communities with companies and people with people. The Group's principal management policies for the current business year are: contributing to reconstruction efforts after the Great East Japan Earthquake; expanding market share through marketing tailored to local needs; accelerating business development overseas; promoting productivity reform; and, developing a personnel development system.

Particularly with regard to contributing to reconstruction efforts after the Great East Japan Earthquake, we placed top priority on providing temporary housing as soon as possible for people who have lost their homes and are being forced to live in evacuation centers. With regard to our management policy of expanding market share through marketing tailored to local needs, we have introduced a new "block" system by dividing up our nationwide marketing efforts, carried out by the staff at our 83 branch offices, into six regions. This has enabled us to develop products that incorporate the unique features of each region, and to bolster our ties with landowners.

With a view to accelerating business development overseas, we established Daiwa House (Changzhou) Real Estate Development Co., Ltd. in China and two companies in the United States – Daiwa House USA Inc. and Daiwa House California – while in Australia we set up Daiwa House Australia Pty. Ltd. These moves were aimed at laying the foundations for the future development of our overseas businesses.

In the field of CSR activities, to make social contributions through our business operations, at temporary housing units in the areas hit by the earthquake and tsunami we provided support for the installation of "greenery curtains" (which are effective in cooling down rooms by blocking the sun's rays and cutting down on electricity consumption), and also donated eco-friendly LED street lamps. At the end of June we published the CSR Report 2011 as part of our proactive efforts to provide our stakeholders with information on the Group's CSR activities.

As a result, for the reporting first-quarter period, on a consolidated basis, we recorded net sales of \$410,100\$ million (up 15.5% year on year). Ordinary income came to <math>\$24,483\$ million (up 55.4%), while net income rose 79.5% to \$13,689\$ million.

(2) Qualitative Information Regarding Consolidated Financial Condition

Total assets at the end of the reporting first-quarter period, on a consolidated basis, stood at \$1,953,413 million, for an increase of \$19,177 million compared with the \$1,934,236 million at the previous fiscal year-end. This is mainly attributable to increases in inventories and investment securities, which more than offset a decline in cash and deposits resulting from the dividend payment and the acquisition of property, plant and equipment.

Total liabilities at the end of the reporting first-quarter period, on a consolidated basis, stood at \$1,318,709 million, for an increase of \$19,659 million compared with the \$1,299,049 million at the previous fiscal year-end. This is mainly attributable to the procurement of funds through the issuance of commercial papers and an increase in advances received on uncompleted construction contracts, which more than offset a decrease in the provision for bonuses.

Net assets at the end of the reporting first-quarter period, on a consolidated basis, declined by $\frac{482}{100}$ million from the $\frac{4635,186}{100}$ million at the previous fiscal year-end, to $\frac{4634,704}{100}$ million, in spite of the posting of net income in the amount of $\frac{13,689}{100}$ million, principally as a result of the payment of shareholders' dividends for the previous fiscal year.

(3) Qualitative Information Regarding Consolidated Business Forecasts

With respect to the Company's business forecasts on a consolidated accounts basis for the term ending March 31, 2012, no changes have been made to the business forecasts in the Notification of Business Performance and Dividend Forecasts announced on June 10, 2011.
